

Technology Programming

Administrative Proposal:

Final Transitioning Year

Shifting responsibilities to Jon Bolduc

- Adding 22 additional days
- Assigning the summer work to J. Bolduc

Offering one- two computer programming class

Redefining Vicki's role in preparation for this final transition

- Reducing her overall days
- Removed the summer work responsibilities
- Reduced overall working days from 3 days to 2
- Reduced her overall calendar from 9 months to 5 1/2 months.

Transitional activities

- Building the technology curriculum
- Creating a schedule of computer programming options
- Collaborate with Jon on infrastructure
- Update the technology plan
- Complete Inventory of technology equipment
- State

Request School Board Proposal:

Eliminate Network (Shifting to Jon)

Combine Network Administrator with broader instructional responsibility (one full time job)

Pre-calculus

Hire a full math teacher (Replacing Jon)

- Hire a teacher to teach algebra, geometry,

*To the large extent, this is the model we have tried in the past with one technology teacher and with one math teacher.
