

**INDIVIDUALIZED PROGRAMS OF STUDY FOR HIGH SCHOOL
GRADUATION CREDIT**

It is the policy of the Islesboro School Committee to seek to meet the individual needs of all students by providing appropriate programs at Islesboro Central School. However, there are times when a student's needs or interests continue beyond the programming available at ICS and cannot be best met by any available alternative school programs. In such cases, the administration is authorized to approve creation of a unique individualized program for that student.
